MySQL

Personal Projects

Mountain Fauna Lover

This is my Personal Brand that I created to share online my passion for the mountains and the animals that live there.

It led me to establish collaborations with important brands in the sector such as Swarovski Optik

IT Projects

I have developed mainly in Python some scripts that automate some processes in the management of the project mentioned above, such as publishing videos and translating them on YouTube via Google APIs.

Other Skills & Soft Skills

Video Editing

Mainly with Final Cut Pro

Social Media Manager / Content Creator

Skills learned during the realization of my personal project

optimism and gratitude

Positive and appreciative approach to challenges, capable of maintaining a proactive attitude and valorizing opportunities, even in the most complex contexts.

Sales

skills developed through summer experiences and seminars, with a focus on persuasion techniques.

continuous desire to learn

Strong desire for personal improvement, developed through courses, seminars that stimulate growth and new skills.

Time management

optimization of resources and respect of personal and work deadlines improved through productivity courses/events.

precision and attention to details

everything must be done to the best of its ability

Team Work & Leadership

Ability to work in a team and lead teams, developed through collaborative projects in the training field.

Flexibility & Resilience

Ready to question routines and paradigms to adapt to new challenges, maintaining perseverance and motivation even in the face of difficulties.

Voluntary experience

● Volunteering in Brazil - Don Mazza Merit College

From July 2024 to August 2024 [Collegio don Mazza](#) Brasile

I have actively participated in volunteer projects organized by Collegio Don Mazza, with particular attention to education and social support initiatives. During this experience, I collaborated with projects aimed at improving the socio-educational conditions of children and adolescents in disadvantaged areas, including after-school activities, creative and sports workshops, and literacy programs.

Furthermore, I had the opportunity to contribute to social inclusion and the promotion of the psycho-physical well-being of young people, working in an intercultural exchange context, which enriched my relational and organizational skills.

This experience allowed me to develop important soft skills such as teamwork, leadership and problem solving skills.
